1 - JP Morgan notified DPFP that they have elected to terminate the investment period of the AIRRO II fund. Capital can only be called in specific situations such as for follow-on capital, fund expenses and fees. DPFP expects that only a small portion of the unfunded will actually be called by the manager.

2 - DPFP has a capital commitment obligation to repay \$65.3m of RCH company level debt, which amortizes until the final payment is due on December 31, 2017, but could be called if DPFP net plan assets drop below \$1.75 billion. Total commitment includes overcollaterization required by bank under the loan agreement.
